Exporting Dashboard

The screenshot shows a web browser window displaying the IBM Cognos Analytics dashboard. The dashboard has a dark theme and includes a search bar, navigation tabs, and a main content area with two charts. The left chart, 'Area by Crop_Year', shows a blue area chart with a line graph overlay, covering the years 1997 to 2001. The right chart, 'Production by Crop_Year', shows a similar blue area chart with a line graph overlay, covering the years 2010 to 2015. A 'Share' dialog box is open in the center, with the 'Export' tab selected. The dialog box contains the following information:

- Share** (Title bar)
- Send**, **Link**, **Export** (Tabs)
- Export to PDF** (Section header)
- If you are using a Windows operating system, ensure that you installed a PDF driver. For more information about exporting to PDF, [click here](#).
- Page size**: Letter (dropdown menu)
- Orientation**: Landscape (dropdown menu)
- ☐ **Include filters**
- Cancel** and **Export** (Buttons)

The Windows taskbar at the bottom shows the system clock as 13:37 on 15-11-2022, with a temperature of 29°C and a cloudy weather icon. A notification bar at the bottom of the browser window indicates that 'meet.google.com is sharing your screen' and provides 'Stop sharing' and 'Hide' buttons.
